Key/Interface specification

Please charge for the first time and unplug the charger before use

Use the wizard

1. First use please charge first, long press the power key 3 seconds to boot.

2. Overseas version of [iPrint] APP, download methods: For Apple users, please search and download in the AppStore; For Android users, please search and download in Google Play.

iPrint

3. After bluetooth is enabled, use the app downloaded from the mobile phone to connect to the Bluetooth printer in the TAB bar of "My Device". After successful connection, the note can be printed.

Paper replacement course

1. Take out the old paper roll and put the

new paper roll in the direction shown. The paper should be put straight and not crooked. (Note: The new thermosensitive paper needs to be exposed to 2 cm of paper bin length so that the machine can absorb paper automatically when the paper bin is shaped)

2. Cover the paper bin, the

machine can automatically absorb paper after normal use.

3. After the above steps

are correct, the machine can print normally.

Battery Warning Note

1. Please use 5V charger to charge according to the specification to avoid damage to the machine.
2. Disassembly, impact, extrusion or fire are prohibited;
3. If severe bulging occurs, do not continue to use;
4. Do not put in high temperature environment, battery after immersion is prohibited to use;
5. Replacement with the wrong type of battery can be explosive, be sure to follow the instructions to dispose of used batteries.
